In my opinion, after examining the image file “hunter xp” the suspects were involved in multiple crimes like Stalking, Extortion & evidence tempering. Therefore, as per the law of UK government these crimes are considered very serious criminal offence. There are many laws and strict punishment made by the UK government for these kinds of crimes. For Example:

1. Protection from Harassment Act 1997 c.40 (s.2A Offence of Stalking)

This law of UK states that if a person,

- Follow anyone
 - Loitering in any place
 - Watch or Spy on a person
- He/She must be punished with imprisonment up to 51 weeks or a fine up to 5000 Euro or both.

2. Theft act 1968 c.60 (s.21 Blackmail)

This law of UK states that if a person,

- Responsible for making demand
 - Making demand forceful or convincing
- He/she must be punished with imprisonment up to 14 years.

3. Computer misuse Act 1990 c.18 (s.3 Unauthorized acts with intent to impair, or with recklessness as to impairing, operation of computer)

This law of UK states that if a person,

- Try to prevent or hinder access to any data or program held in any computer,
 - Does any unauthorized act in relation to a computer
- He/She must be punished with imprisonment up to 12 months or fine up to 5000 euro or both.

Finally, I think all these laws of the UK government are applicable for the suspects for clicking the photos of girls without permission, threatening and demanding money from victim's father and tempering the evidence.
